## 1. Introduction

1.1 South Ayrshire Council employees have the right to expect to be treated with respect and without fear of violence and aggressive behaviour. Aggression, in any form towards Council employees will not be tolerated. Work has taken place with teacher trade unions to agree appropriate reporting and support mechanisms for employees (school based) who experience incidents of violence and aggression.

This agreement should be read in conjunction with South Ayrshire Council's Risk and Safety Standard on Violence and Aggression at Work (Standard No. 25) which can be found on The Core using the following link –

HealthandSafetyStandards/ViolenceandAggression

Violence or aggression at work by one employee against another is not covered by this agreement. Where this situation arises employees should seek advice from their HR Advisor to discuss which policy/procedure/course of action would be appropriate. Advice can also be sought from Trade Union Representatives.

## 2. Key Principles

2.1 The purpose of this agreement is to provide a reporting mechanism for school staff who are subject to violence and aggression from pupils, parents, or others in relation to their employment with South Ayrshire Council.

The Health & Safety Executive definition of an incident in this context is '*any incident in which a person is abused, threatened or assaulted in circumstances relating to their work'*. This includes physical attack and threatening behaviour with or without a weapon, and intentional damage to personal property'.

## 3. Actions Required

3.1 Employees are required to complete the online reporting form within **5 working days of the incident**. Individual employees have a right to report incidents to police if they feel it is appropriate to do so.

The incident will be recorded via the online Violence and Aggression form, an acknowledgement will be sent to the employee directly after submission, thereafter, Management at the establishment are required to discuss the incident with the employee prior to completing the Management section of the online form, which should be submitted within 5 days of receipt of the online notification, providing the outcome of the reported incident.

The establishment management team will offer an appropriate level of support to the employee and where appropriate medical support can be accessed through a referral to Occupational Health. Statistics will be monitored, with patterns and trends being

reported to the Inclusion Team who will offer an appropriate level of support to reduce further incidents.

Statistical data will be collated from the online submissions and will be used to provide the JCC and the DMT with regular updates on incidents of violence and aggression in establishments. Statistical information will also be provided to the Scottish Government, Education Scotland or other recognised bodies on request. Data will also be used to respond to Freedom of Information requests although the names of staff and pupils involved will never be disclosed.

# 4. RIDDOR Reportable Incidents

The Risk & Safety Team will notify the HSE of incidents that require compliance with the Reporting of Injuries, Diseases & Dangerous Occurrences Regulations 2015. (RIDDOR). A RIDDOR reportable incident refers to an incident whereby the employee was either absent from work following the incident for more than 7 consecutive days (not counting the day of the accident); had to attend hospital directly following the incident; or where a 'major injury' such as broken limb has occurred. Advice on reportable incidents can be obtained from the Risk & Safety Team on 01292 612048 or by e-mail at corporate.safety@south-ayrshire.gov.uk
